👤 PROFILE

I am a passionate web developer. I possess experience in the most important web development fundamentals, best practices, and modern technologies.

I am looking for a new opportunity to further improve my **React, Node.js and Typescript environments skills**.

I have gained vast knowledge in building professional and responsive web applications using the following technologies: **React, Angular, Node.js, Nest.js, SASS, core JS API, PWA**.

I pride myself on viewing a problem and solving it in ever-more creative ways. I am hoping that I can apply my passion to your company.

📁 EXPERIENCE

FULL STACK DEVELOPER at Exlint

April 2021 — Present

Taking part in the development of an open source software startup, aiming to provide tools to empower coding conventional best practices.

I acquired experience in **React.js, Typescript, NestJS, MongoDB, Prisma ORM**.

FULL STACK DEVELOPER at Enigma Securities

November 2021 — Present

Enigma Securities is a regulated cryptocurrency liquidity provider. The company offers clients bespoke liquidity solutions through the use of a proprietary trading platform & access to APIs.

Working as a full stack developer at Enigma Securities, I developed complex web applications, developed with the following front-end technologies: **React, Redux, Typescript, SCSS, MUI, B.E.M methodology**. Back-end technologies: **Node.js, MySQL, Sequelize ORM**.

I have also got to manage projects from an architectural point of view & had the responsibility to review code.

OPERATIONAL INVESTIGATOR

January 2019 — June 2021

Managed and conducted investigations of crime scenes, suicide incidents, operational training accidents, and fatal road accidents.

🎓 EDUCATION

Full Stack Development, Academind

October 2020

I've completed the following courses:

JavaScript: JavaScript Course, JavaScript Data Structures, JavaScript Understanding the Weird Parts, JavaScript Algorithms.

TypeScript, React.JS, Angular, Node.JS, MongoDB, Docker & Kubernetes, AWS.
